LIGHT OF INNOVATIONS

Indian Techniques for Dam Instrumentation

One step towards *self sufficient* India

Our Expertise in

1. Assessment of Embedded sensors buried in Civil Construction
2. Digital plumb line or Deflection meter or Co-ordimeter
3. Three Axis Accelerometer
4. Inclinometer
5. Joint meter
6. Flow measurement (Digital)
7. Stainless Steel V- notch (Mechanical)
8. Digital River & Canal Gauge (Water Level Recorder)
9. Tilt meter
10. Settlement Gauges
11. Digitization or new installation of Seismic Instruments
12. Digitization or new installation of Uplift & Pore pressure cells
13. Wireless Data Transmission System
14. Customized Equipment as per requirements
15. Centralized Data logger
16. Analysis Software for all sensors
17. 24VDC Low Voltage Gallery Lights
18. Dam top & Street lights
19. Organic Chemical for calcinations removal
